In preparing the tables for this report, the costs of maintenance and operation of departments and the various activities are classified as charges against revenue and all so-called permanent improvements are classed as outlays and are shown separately under that heading in Table I. The amount of revenue for current charges in excess of current charges against revenue, namely, $15,124,146, represents the money received from the taxing and police powers and also from public service performed for which special charges are made that was available for so-called outlay expenditures.

The actual amount that represents annually recurring costs can not be determined and whether enough is being raised to cover these costs can be determined only by a careful analysis of the activities of the several municipalities. We are committed to the pay-as-you-go policy for we believe it is the best method thus far devised. What we are really concerned with, however, is to determine how we can go and pay as we go as distinguished from the policy of pay and not go. We have thrust upon us debts contracted in the past which are burdensome and which must be met, and if we add to this the expense of all recurring costs, it is likely to result in higher tax rates for a time. But for twelve years we have gradually adjusted these old accounts, and all those municipalities which gave heed to the legislative acts of 1913 should be in a position to adopt the pay-as-you-go plan at the present time. Those municipalities which adhere to the borrowing policy must realize that for any improvement for which a loan may be made under our present laws, they are paying from 12 to 62 per cent more than the municipality which pays for improvements from the current year's revenue. Consequently we must expect the municipality which pays as it goes to have a much lower tax rate than the one which finances all its improvements by borrowing.

Many public improvements, which might well be considered luxuries, are undertaken, but might be postponed and, in fact, would have been postponed if it had been necessary to add the cost of them to the current year's tax levy. Likewise, many needed improvements are forced to be postponed at the present time on account of the large amount that must be raised by taxation to meet the debt and interest charges that have resulted from a borrowing policy.

I do not mean to say that every outlay should be reflected in the current tax rate, but rather annually recurring costs, or that portion of an improvement which might be representative of annually recurring costs. In rapidly growing cities and towns it would be unwise to attempt to finance all improvements wholly from current tax revenues as it would result either in an intolerable tax burden on the community or else would unreasonably retard growth.

The Debt Burden.

The net funded or fixed debt of all municipalities at the close of the financial year 1923 was $229,966,970, an increase over 1922 of $14,993,945, or 6.97 per cent. The increase in assessed valuation of taxable property was $262,775,084, or 4.60 per cent.

On pages xxiii to xxix tables are presented showing the net debt January 1, 1925, and the ratio of net debt to assessed valuation for the cities, the towns over 5,000 population, and the towns under 5,000 population. The total net debt on January 1, 1925, for all municipalities was $245,516,898, an increase over that reported for January 1, 1924, of $20,349,256, or 9.04 per cent. This increase was partially due to the assessment on certain municipalities of $1,500,000 on account of Essex County Tuberculosis

Hospital, and the assessment on certain cities and one town of $4,379,241.27 on account of Hampden County Memorial Bridge. This debt, while formerly included in the county debt, becomes municipal debt to the extent that municipalities borrowed to meet their assessment. The actual increase in public debt, therefore, was approximately $15,000,000.

The debt figures shown in these tables are for the calendar year 1924, whereas in the table in Parts 1, 2, and 3, showing the relation of indebtedness to assessed valuation, the figures are for the fiscal year 1923. The financial year of the cities does not correspond in all cases with the calendar year, since some cities close their year on November 30, and others as late as March 31 following. This difference between the financial year and the calendar year accounts for any variation which may be observed in the amount of indebtedness reported for the calendar year and the amount reported at the close of the financial year.

The aggregate general debt January 1, 1925, for all municipalities was $187,283,-796.75, of which $75,056,435.82, or 40.08 per cent, is debt reckoned as outside the limit of indebtedness, practically all of which has been issued under authority of special legislation.

The ratio of net debt to assessed valuation on January 1, 1925, was 3.90 per cent, which is a slight increase over the ratio shown for the close of the year 1923. The ratio of indebtedness, while higher than that of the preceding January, is, however, less than the ratio of indebtedness to valuation prior to the year 1919, and as far back as the year 1910 which is the first year these returns were published.

From information received as to the indebtedness incurred since January 1, 1925, it is probable that in our next annual report we shall be able to show a greater percentage of increase in valuation than in debt. Although the demand for new school buildings and permanent construction of roads will still be great and will continue to call for serious study for many years, we are gradually overcoming the extraordinary conditions which resulted from the postponement of improvements on account of the war and are financing more normal conditions.

The policy now followed of shortening the period of all loans issued under authority of special acts, and of requiring an initial contribution from the tax rate before such loans can be made are two steps which are certain to check the increase in indebtedness, so that in the very near future there is bound to be a reduction in the tax rates. Using the words of His Excellency the Governor, in his inaugural address, we repeat, "The goal to which we should direct our continued efforts is a Commonwealth without debt."

The Certification of Town and District Notes.

Sections 25 and 28 of Chapter 44, General Laws, which provide that this department shall be notified when loans are authorized, issued, and paid have proved very helpful in the examination of loans authorized by towns in cases where notes are issued, and in enabling the division to keep its debt records up to date so that the many inquiries received from investors in municipal securities may be answered. Information is also available for committees of the Legislature when considering bills presented by municipalities seeking authority to borrow outside the statutory debt limit. In the examination of town notes, it is essential that complete information as to special legislative authority for the incurrence of debt by the towns be available, and also that complete information as to the financial condition of the town be in our files.

The statute which requires all town notes to be issued on forms prescribed by this department and to be certified by the Director of Accounts has proved to be of great value to the towns, and has had a tendency to increase the marketability of such securities, the interest charges, as a consequence, being materially reduced for the majority of the towns.

The number of notes certified and the amount of the loans represented by them since the original act went into effect in 1911 are shown in the following table:

Years.	Revenue and Other Temporary Loans		General Loans		Total	
	Number	Amount	Number	Amount	Number	Amount
1911	983	$8,974,214.59	433	$737,349.43	1,416	$9,711,564.02
1912	1,093	9,438,850.00	831	1,093,712.20	1,924	10,532,562.20
1913	1,241	10,958,450.00	1,095	1,727,363.74	2,336	12,685,813.74
1914	1,411	12,780,963.00	1,290	1,779,575.29	2,701	14,560,538.29
1915	1,501	13,857,600.00	1,306	1,505,530.16	2,807	15,363,130.16
1916	1,437	14,066,488.00	867	1,204,053.62	2,304	15,270,541.62
1917	1,456	15,414,379.22	809	819,664.21	2,265	16,234,043.43
1918	1,665	16,434,205.75	664	711,160.23	2,329	17,145,365.98
1919	1,483	16,914,825.66	912	1,682,658.12	2,395	18,597,483.78
1920	1,802	20,990,182.84	1,339	1,869,786.72	3,141	22,859,969.56
1921	2,176	25,695,512.64	1,923	2,390,275.40	4,099	28,085,788.04
1922	2,183	28,245,427.06	2,099	2,562,840.93	4,282	30,808,267.99
1923	2,047	26,393,895.80	1,946	2,580,052.00	3,993	28,973,947.80
1924	2,230	30,644,443.62	2,028	2,688,215.00	4,258	33,332,658.62
1925 [1]	1,493	21,242,080.00	690	1,121,298.00	2,183	22,363,378.00

[1] To July 1.

The Auditing of Municipal Accounts and the Installation of Accounting Systems.

The demands on the part of municipalities for audits to be made and for the installation of accounting systems continue far in excess of our ability to meet them with the present force, and while we are gradually adding to the number of examiners in the division, such additions scarcely meet the increasing demands. In carrying on this work, it is our purpose not only to discover mathematical errors and discrepancies, but to point out errors of judgment and the failure to carry out the statutes which specifically set forth the things which cities and towns may do and how they shall do them. The yearly changes in municipal officials necessitate a continuous process of education along certain lines. The failure on the part of individuals to understand the necessity of training to fill certain positions, especially positions involving the handling of public funds, and the failure on the part of the public to realize the necessity of properly compensating its public officers so as to attract to public service those having experience or aptitude along the lines needed in each particular department, have, in many instances, resulted in lax financing and, in a number of cases, what is far worse, an actual loss of public funds. With the great increase in municipal activities, and in the amount of money now raised to carry on such activities, it can hardly be expected that a person who has had little or no experience in keeping accounts will record and account for funds coming into his possession in the way the public demands, especially when such an official must carry on a private business in order to obtain a sufficient amount to live on, since only a retainer is promised for his public service, no attempt being made to pay an adequate salary. The common remark heard that the job need not be taken if the salary does not satisfy, is not, in my opinion, an answer. This Commonwealth has been noted for its public-spirited citizens, but there is a limit to all things, and while the reflections of the past are satisfying yet we must look to the future. Little complaint was heard when we had a tax rate of $10 or $12 per $1,000 valuation, but today, in order to meet public demands, we have tax rates of $30 or more per $1,000 valuation, and consequently a spirit of unrest is created. No longer can we satisfy the taxpayer with a mere statement of what has been received and paid out, but we must show the source of the receipt and the purpose of the expenditure. Our municipalities must provide administrative and operative officials, the first class to consist of public-spirited citizens of business experience who shall act as trustees and who shall not be expected to give their full time, and the other class to consist of specialists in their particular lines, who shall have more or less permanent tenure and shall be paid a reasonable compensation, if the best results are to be obtained.

The audits disclose conditions in some places far from satisfactory, either as to methods of accounting or methods of financing. Oftentimes it is found that the record for low tax rates can be explained by the fact that accumulated reserves have been drawn on or that borrowings have been made and the burden passed on to future taxation. The public should understand that the tax rate is only a part of the story; in fact, it is the smallest part, since it is a comparatively easy matter to mislead the public for a short period of time, but eventually the truth will come out, and, unfortunately,

the effect of poor financing usually falls upon an innocent administration. The system of accounts which is installed by this division will make available facts as to the general policies followed, if the interested taxpayer will give some consideration to the statements which show the financial condition as taken from the books at the close of the fiscal year.

Accounting systems have been installed in 150 cities and towns, a gain of 14 in the past year. During this period, audits have been made in 75 other cities and towns, and assistance has been rendered to a large number of cities and towns in which accounting systems have been previously installed.

Conclusion.

This report has been compiled from returns filed by city and town officials, after a careful editing by the very small office force available for this work. Many letters have been written seeking information as to items included in the returns, or in the published annual reports of cities and towns, and in practically every case a most cordial spirit of cooperation has been shown in the replies received. There are, however, a number of municipalities which make no attempt to comply with the statute which requires the filing of these returns, and while it might be well to eliminate those municipalities from the report, such a procedure would leave the report more or less incomplete. It would probably arouse the delinquent and careless if the penalty for failure to make returns as now provided for by the general laws were imposed. With our present force we are accomplishing as much as it is possible to do.

The results obtained during the past year have been quite satisfactory, and have been made possible by the efficient services of the examiners and clerks of the division, especially Mr. Edward H. Fenton, Deputy Director and Chief Examiner, who has charge of the work of auditing and of the installation of accounting systems, and Miss Hannah M. Varney who has charge of the clerical work and the preparation of this report.

I wish to express my grateful appreciation of the conscientious services rendered by the entire force, for I feel that, without exception, the force has worked unceasingly to make possible accurate information of municipal financial transactions which is invaluable to the interested taxpayer either by way of audit reports, accounting systems, or publication of statistical data.

Respectfully submitted,

THEODORE N. WADDELL,
Director of Accounts.

State House, Boston, July 1, 1925.

PLAN OF THE REPORT.

The statistical presentations of this report, following the introductory matter, are arranged in three principal parts, devoted respectively to the finances of (I) the 39 cities; (II) the 74 towns having a population of 5,000 or over; and (III) the 242 towns having a population of less than 5,000. In all the tabulations, unless otherwise indicated, the cities and towns are arranged in order of population for convenience of comparison.

Part I. — Cities.

This part is subdivided as follows: — (A) Summary of Financial Transactions; (B) Receipts from Revenue; (C) Payments for Maintenance and Interest; (D) Indebtedness; and (E) Cash Balances.

(A) *Summary of Financial Transactions.*

This division consists of a summary table (designated Table I) or general survey of all the financial transactions of the 39 cities of the Commonwealth (pp. 4–27). The several cities, with the exception of Boston, which has financial transactions of such magnitude as to warrant presentation independently of the other cities, are arranged, for purposes of comparison, according to the population of the Massachusetts Census of 1920, typographical considerations making it necessary to adopt an arbitrary grouping of four municipalities to a page.

(B) *Receipts from Revenue.*

Table II (pp. 30, 31) shows receipts from *General* and Table III (pp. 32, 33) receipts from *Commercial* Revenue. The former consists of taxes, licenses and permits, fines and forfeits, grants and gifts, and all other general revenue; while the latter is composed of revenue from special assessments (whether for expenses or outlays), privileges, departmental earnings, public service enterprises, cemeteries, and interest.

Table IV (pp. 34–42) is an exhibit of classified Departmental Earnings (being the detail of Column D of Table III), from which may be seen the amount of revenue received by the several municipalities from their various departments. Unclassified receipts are excluded because of their diversity. This table is self-explanatory and is suggestive as disclosing the varying degree to which different cities have discovered opportunities for revenue from this source.

Table V (p. 43) is a tabulation of interest receipts classified so as to show the amount of interest derived from money on deposit, from deferred taxes and special assessments, from public trust funds (sub-classified according to particular funds, so far as is practicable), from investment funds, and from miscellaneous sources.

Table VI (p. 44) presents a summary of revenue receipts, giving within the scope of a single table in a form convenient for comparison the receipts from all sources of revenue of the 39 cities.

It is of interest to note that of the total revenue receipts of the 39 cities of the Commonwealth for the year covered by the report, 80.8 per cent is from general revenue sources and 19.2 per cent from commercial revenue sources. The revenue receipts of the city of Boston are 79.0 per cent from general and 21.0 per cent from commercial sources.

(C) *Payments for Maintenance and Interest.*

The tables in this division, VII to X, inclusive (pp. 46–68), exhibit gross payments, classified in detail, on account of the maintenance cost, or what are sometimes called the "current expenses" of the various departments or kinds of municipal services. Interest payments are similarly but separately shown, not only because it is desirable to exhibit this item of expense independently, but because interest is properly a capital rather than a departmental charge.

It would be most interesting and significant, too, if we could calculate the net cost of the several municipal services so as to show the actual burden of each upon the taxpayer, and it might be supposed that such a figure could be obtained simply by deducting the earnings of a department from the amount necessary to maintain it; but there is as yet on the part of accounting authorities no clear or general understanding as to what receipts should be treated as departmental earnings, thereby constituting a proper offset to expense, and what, on the other hand, being in the nature of an assessment upon the taxpayer rather than a charge upon the citizen, cannot

be legitimately deducted from a gross cost figure in order to obtain net cost of maintenance.

In comparing certain departmental expenses, large differences will occasionally be noted for the same class of service, the reason for which is not sufficiently apparent to warrant our attempting to assign it without more or less exhaustive inquiry. Meanwhile the differences, even for a single year, which may be noted in these comparative tables for cities of approximately the same size should stimulate local discussion for the purpose of ascertaining whether a satisfactory explanation can be found.

From the interest table (p. 68) we note that the total interest burden of the 39 cities for the year covered by the report was $14,218,701.57, of which $7,565,261.10, or 53.2 per cent, was interest on the general debt; $1,638,519.81, or 11.5 per cent, was interest on revenue and other temporary loans; and the remaining 35.3 per cent of the total interest payments was for debt on account of trust funds used, public service enterprise and cemetery loans, metropolitan assessments for sewer, park, and water purposes, state assessments on account of grade crossing abolition, and miscellaneous debt not specified. It is of interest to note that the total assessment on the city of Boston for interest on metropolitan debts was $1,678,275.77, or 25.5 per cent of the total interest burden of the city (see also payments to the state sinking and loan funds on page 73). Nearly 56 per cent of Somerville's total interest burden is on account of metropolitan assessments.

(D) *Indebtedness.*

Table XI (p. 70) shows the outstanding indebtedness classified by the character of the obligation; Table XII (p. 71), the relation of indebtedness to valuation, the valuation figures as reported to the Tax Commissioner being used; Table XIII (p. 72), the debt transactions for 1923, classified according to the character of the obligation; Table XIV (p. 73) shows separately the payments to the state sinking and loan funds; and Table XV (p. 74) shows the method of meeting debt requirements from taxation.

A tabulation which gives figures for the funded or fixed debt and the net debt only of a municipality does not, however, tell the whole story of the debt burden. Revenue loans, it is true, are not included in reckoning the limit of indebtedness under the law; but though they are temporary transactions with uncollected taxes presumably as an offsetting asset, they constitute in fact a permanent burden, since they are as a class annually recurrent. Loans in anticipation of bond issues, although of a temporary character, are in reality *fixed* debt (having no assets as an offset) and in Table XII are included in the total of funded or fixed debt and reckoned in determining the net debt. Table XI (p. 70) has therefore been prepared for the purpose of showing the aggregate outstanding indebtedness, including not only the funded or fixed debt, but also temporary debt and warrants or orders unpaid.

The net funded or fixed debt is found by deducting from the total funded or fixed debt the amount which has been set aside in sinking funds to pay the debt when due. Funded or fixed debt does not include revenue loans or outstanding warrants or orders, because these debts are considered temporary, and it is assumed that such obligations are offset by theoretically "quick" assets. Thus, revenue loans are offset by uncollected taxes, and warrants or orders by cash on hand.

The table of debt transactions (p. 72) is of interest as showing the amount of debt incurred during the fiscal year 1923 for the several purposes specified, and the amount of debt cancelled during the year, excepting payments to the state sinking and loan funds on account of grade crossings, metropolitan assessments for sewer, park, and water purposes, and payments to counties on account of debt incurred for bridge purposes. These payments represent the cancellation of a portion of the city's debt incurred by the State on its account, and for this reason are excluded.

Included in the term "General Loans" in the table of debt transactions are not only loans issued for general purposes, but likewise all loans whether specified as for school, fire, or police, etc., purposes, since these could not be shown separately by figures which would be comparable.

Payments to the state sinking and loan funds on account of grade crossings and metropolitan sewer, park, and water assessments are shown separately in Table XIV (p. 73). The aggregate amount thus paid for the 39 cities in 1923 was $697,988.86, of which *Boston* paid $401,084.72, or 57.5 per cent.

Table XV (p. 74) is of interest as showing the relative use by the 39 cities of Massa-

chusetts of the two methods of meeting their debt obligations. The payments to the state sinking and loan funds on account of grade crossings and metropolitan assessments are included in this table in order to show the annual debt charges against revenue, but they are *assessments* and not properly charged as a serial or municipal sinking fund payment.

(E) *Cash Balances.*

Table XVI (p. 76) shows the amount of cash on hand held by the treasurer and departments at the beginning and close of the fiscal year 1923.

PART II. — TOWNS OVER 5,000 POPULATION.

The subdivisions of this part are as follows: — (A) Summary of Financial Transactions; (B) Indebtedness; (C) Cash Balances.

The tables in Division A, *Summary of Financial Transactions* (pp. 80–121), are similar in form and detail to those given for the cities in Part I, the towns being arranged according to population, with the exception of Brookline, the largest town, which is presented separately as its transactions are scarcely comparable with those of any other town. The tables in the division devoted to *Indebtedness* (II, III, IV, V, and VI, on pp. 124–131, inclusive) are similar to those given for the cities, and the comments made in the latter connection are likewise applicable to the towns. The statements of *Cash Balances* (pp. 134, 135) for the towns are also self-explanatory.

PART III. — TOWNS UNDER 5,000 POPULATION.

The subdivisions of this part are as follows: — (A) Summary of Financial Transactions; (B) Indebtedness; (C) Cash Balances. They are presented on the same plan as the towns of over 5,000 population, which are shown in Part II.

Excess or Deficiency of Revenue: Cities.

Cities. (In order of Population, 1920)	Revenue for Current Charges					Current	
	1919	1920	1921	1922	1923	1919	1920

[1] Includes population of 65 towns having no funded debt.

[2] Includes valuation of 65 towns having no funded debt.

The following towns under 5,000 population showed no funded debt outstanding on January 1, 1925:

Alford	Chesterfield	Gill	Hopedale	New Braintree	Petersham	Shelburne	Washington
Ashfield	Colrain	Granby	Lakeville	New Marlborough	Phillipston	Shutesbury	Wendell
Barre	Conway	Greenwich	Leverett	New Salem	Plainfield	Sturbridge	Westhampton
Becket	Dennis	Harwich	Mendon	Norfolk	Prescott	Tolland	West Stockbridge
Berkley	East Brookfield	Hawley	Monroe	Oakham	Rochester	Truro	West Tisbury
Berlin	Egremont	Heath	Mount Washington	Orleans	Rowe	Tyringham	Windsor
Brimfield	Enfield	Hinsdale	Nahant	Otis	Royalston	Upton	Worthington
Carlisle	Florida	Holland	New Ashford	Peru	Sandisfield	Wales	
Charlemont	Gay Head						

Part I

Cities

Fiscal Years of Cities.

The data given in the tables in Part I are for fiscal years ending in the several cities, as follows:

Cities.	Fiscal Year Ending	Pages of Report
Attleboro	Dec. 31, 1923	20, 21

[1] In anticipation of receipts by Smith's Agricultural School and Northampton School of Industries.

TABLE XII. — *Relation of Indebtedness to Valuation — 1923.*

NOTE. — The valuation given in this table is the assessors' valuation of real and personal property as of April 1, 1923, together with the supplemental assessment of December, 1923, exclusive of the non-resident bank stock as reported to the Tax Commissioner.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table XI, which includes funded or fixed debt and also temporary debt. If the amount of revenue loans, other temporary loans, (such as is found in Northampton, see foot-note on Table XI), and warrants or orders is deducted from the total debt shown in Table XI, the result will give the funded or fixed debt shown in Table XII.

	Cities.	Population of 1920	Percentage of Net Debt of Valuation	Valuation of 1923	Total Funded or Fixed Debt	Sinking Funds	Net Funded or Fixed Debt
1	Taunton	37,137	**6.6**	$37,922,062	$3,271,500.00	$787,236.16	$2,484,263.84

[1] Includes $140,970.64 investment fund.
[2] Includes railroad stock offsetting debt of $195,000.

TABLE XIII. — *Debt Transactions for 1923 Classified by Character of Obligation.*

NOTE.—The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State on account of grade crossings and Metropolitan assessments, or payments to counties on account of debt incurred for bridge purposes. For this reason the total amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 4 to 27, under the section "Municipal Indebtedness."

Refunding bonds for the current year were bonds issued for general purposes.

DIVISION A

SUMMARY OF FINANCIAL TRANSACTIONS FOR THE FISCAL YEAR ENDING DECEMBER 31, 1923

TABLE I. — *Summary of Financial Transactions. Towns*

RECEIPTS.	Brookline Population 37,748
REVENUE.	**$2,746,289.66**
General	**2,449,220.46**
Taxes	*2,434,348.66*
Property, poll, and income	2,315,102.16
Corporation, bank, etc.	119,246.50
Licenses and permits	*4,183.50*
Fines and forfeits	*1,258.36*
Grants and gifts	*8,742.88*
For expenses	7,742.88
For outlays	1,000.00
All other	*687.06*
Commercial	**297,069.20**
Special assessments	*7,384.55*
To meet expenses	7,384.55
To meet outlays	–
Privileges	*2,683.10*
Departmental	*104,270.76*
General government	1,794.12
Protection of persons and property	6,198.23
Health and sanitation	22,054.69
Highways	339.92
Charities	11,310.63
Soldiers' benefits	1,950.00
Schools	19,385.69
Libraries	2,882.10
Recreation	9,669.95
Unclassified	28,685.43
Public service enterprises	*161,308.81*
Electric light	–
Water	161,308.81
All other	–
Cemeteries	*7,431.41*
Interest	*13,990.57*
On sinking funds	–
On trust and investment funds	1,754.35
All other	12,236.22
NON-REVENUE.	**$1,597,529.07**
Offsets to outlays	**16,054.65**
Departmental	*10,023.00*
Public service enterprises	*6,031.65*
Cemeteries	–
Municipal indebtedness	**1,152,050.00**
Loans, general purposes	*250,000.00*
Loans, public service enterprises	–
Loans, cemeteries	–
Bonds refunded, current year	–
Temporary loans (including revenue loans)	*900,000.00*
Unpaid warrants or orders, current year	–
Premiums	*2,050.00*
Transfers	–
From sinking funds	–
All other	–
Refunds	**13,325.72**
Agency, trust, and investment	**416,098.70**
Taxes and licenses for State	*243,116.84*
Taxes for county	*164,411.76*
Reimbursements for grade crossings	–
Sinking and other permanent funds	*8,570.10*
All other	–

RECAPITULATION.

Revenue and offsets to outlays	$2,762,344.31
Premiums	2,050.00
Municipal indebtedness	1,150,000.00
Transfers and refunds	13,325.72
Agency, trust, and investment	416,098.70
Total receipts	**$4,343,818.73**
Balance on hand, including funds	*383,311.08*
GRAND TOTAL	**$4,727,129.81**

Graded According to Population of 1920.

PAYMENTS.	Brookline Population 37,748
Maintenance	**$2,368,385.92**
Departmental	*2,236,400.75*
General government	123,567.32
Protection of persons and property	523,597.58
Health and sanitation	330,953.35
Highways	330,679.05
Charities	45,666.75
Soldiers' benefits	3,140.00
Schools	597,963.48
Libraries	65,626.85
Recreation	179,039.74
Pensions	22,053.86
Unclassified	14,112.80
Public service enterprises	*122,673.36*
Electric light	–
Water	122,673.36
All other	–
Cemeteries	*9,301.78*

[1] Includes $5,000 in anticipation of highway reimbursements from State and county.
[2] In anticipation of highway reimbursements from State and county.

TABLE III. — *Relation of Indebtedness to Valuation — 1923.*

NOTE.—The valuation given in this table is the assessors' valuation of real and personal property as of April 1, 1923, together with the supplemental assessment of December, 1923, exclusive of the non-resident bank stock as reported to the Tax Commissioner.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table II, which includes funded or fixed debt and also temporary debt. If the amount of revenue loans, other temporary loans (such as are found in Framingham, Fairhaven, and Grafton (see foot-notes on page 125), and warrants or orders is deducted from the total debt shown in Table II, the result will give the funded or fixed debt shown in Table III.

	Towns. (Population over 5,000)	Population of 1920	Percentage of Net Debt of Valuation	Valuation of 1923	Total Funded or Fixed Debt	Sinking Funds	Net Funded or Fixed Debt
1	Wakefield	13,025	7.0	$17,663,795	$1,230,900.00	–	$1,230,900.00

TABLE IV. — *Debt Transactions for 1923 Classified by Character of Obligation.*

NOTE. — The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State on account of grade crossings and Metropolitan assessments, or payments to counties on account of debt incurred for bridge purposes. For this reason the total amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 80 to 121, under the section "Municipal Indebtedness."

The following towns over 5,000 population made no sinking and loan fund payments in 1923 to the State on account of grade crossings and Metropolitan sewer, park and water systems: —

Abington
Adams
Agawam
Amesbury
Amherst
Andover
Athol
Bridgewater
Chelmsford
Clinton
Concord
Danvers
Dartmouth
Dracut
Easthampton
Easton
Fairhaven
Framingham
Franklin
Grafton
Great Barrington
Greenfield
Hudson
Ipswich
Ludlow
Mansfield
Marblehead
Maynard
Methuen
Middleborough
Milford
Millbury
Montague
Natick
North Andover
North Attleborough
Northbridge
Norwood
Orange
Palmer
Plymouth
Rockland
Southbridge
South Hadley
Spencer
Stoughton
Uxbridge
Walpole
Ware
Webster
Westborough
West Springfield
Whitman
Winchendon

Table III. — *Relation of Indebtedness to Valuation — 1923.*

Note. — The valuation given in this table is the assessors' valuation of real and personal property as of April 1, 1923, together with the supplemental assessment of December, 1923, exclusive of the non-resident bank stock, as reported to the Tax Commissioner.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table II, which includes funded or fixed debt and also temporary debt. If the amount of revenue loans, other temporary loans such as those found in Acushnet, Swansea, Stockbridge, West Boylston, New Marlborough, Berlin, Paxton and Eastham (see foot-notes on Table II), and warrants or orders is deducted from the total debt shown in Table II, the result will give the funded or fixed debt shown in Table III.

There are 67 towns which showed no funded or fixed debt.

Towns. (Population under 5,000)	Population of 1920	Percentage of Net Debt of Valuation	Valuation of 1923	Total Funded or Fixed Debt	Sinking Funds	Net Funded or Fixed Debt
1 Sunderland	1,289	6.4	$917,978	$58,500.00	–	$58,500.00
2 Russell	1,237	6.3	2,841,344	180,100.00	–	180,100.00

[1] Less than one-tenth of one per cent.

TABLE IV. — *Debt Transactions for 1923 Classified by Character of Obligation.*

NOTE. — The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State on account of grade crossings and Metropolitan assessments, or payments to counties on account of debt incurred for bridge purposes. For this reason the amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 140 to 263, under the section "Municipal Indebtedness."

The Commonwealth of Massachusetts

Department of Corporations and Taxation,
State House, Boston, July 1, 1926.

As Commissioner of Corporations and Taxation I submit herewith the Nineteenth Annual Report on the Statistics of Municipal Finances of the cities and towns of the Commonwealth for the financial year 1924. This report was prepared under the immediate direction of Mr. Theodore N. Waddell, Director of Accounts in the Department, and contains data relative to the finances of the municipalities of the Commonwealth, together with tabulations compiled from the returns made by the several city and town officials.

HENRY F. LONG,
Commissioner of Corporations and Taxation.

APR 1 1953

The Commonwealth of Massachusetts

REPORT ON THE STATISTICS OF MUNICIPAL FINANCES — 1924

Hon. Henry F. Long, *Commissioner of Corporations and Taxation, State House, Boston.*

Sir: — I submit herewith the Nineteenth Annual Report on the Statistics of Municipal Finances, covering the years ending between November 30, 1924, and March 31, 1925.

Twenty years have elapsed since the passage of the act which provided for the collection and publication of the financial statistics of the cities and towns in the Commonwealth, and although many changes have been made in the statutes affecting the finances of our municipalities, the report submitted is similar in form to those of previous years. Notwithstanding the changes made in the laws, the general classification of accounts, as used, appears to be in keeping with the most modern classification, and by being able to continue this general classification, we have available comparable figures as to the sources of revenue and the purposes of expenditures for a considerable period of time. A study of these annual reports should be helpful in pointing out the cause of the ever-increasing tax rates. Certain functions of government have shown an enormous increase in cost during the past ten years, partially due to the decrease in the purchasing power of the dollar. Most of the increase, however, is due to additional activities entered into to meet social demands; and so long as additional service at public expense is demanded by the public, there is little likelihood of a material decrease in tax rates. I believe, however, that we are making some progress in the planning of public improvements, and that the increase of taxable property will be at a greater ratio than the increase of indebtedness. At the present time, nearly 20 per cent of the operating cost of government is for interest and debt. By substituting a strictly pay-as-you-go policy for financing all annually recurring costs, we automatically make a saving which will eventually show a reduction in tax rates.

The increase in municipal debt in 1926, as compared with 1925, was 57.75 per cent of the increase shown for the year 1925, as compared with 1924. From information available, I am satisfied that the increase in debt in the year 1927 when compared with 1926 will show a further decrease.

Whether a larger or a smaller amount of the earnings of individuals will be taken from them for the support of government depends entirely on the individuals. Under our Massachusetts laws, it is difficult to postpone to any considerable extent the payment of the cost of government; if service is demanded and supplied, a portion of the cost must be reflected immediately in the tax rate.

Financial Status of the Municipalities.

Excess or Deficiency of Revenue.

The tables shown on pages x to xiii show actual receipts from revenue available for municipal expenditures and the actual cost of maintenance and operation of the various departments, together with payments for interest and maturing debt. Attention is again called to the fact that the report is made on a cash basis and that deductions based on a single year's transactions might lead to false conclusions; but where a period of two or more years is considered, the conclusions drawn are as accurate as if the report were on a revenue and expense basis. It will be noted that 34 of the 39 cities and 77 of the 79 towns of over 5,000 population show revenue for current charges in excess of the current charges against revenue. With our statutes requiring a sum equal to twenty-five cents on every thousand dollars of assessed valuation to be raised before a loan may be authorized, there should result in practically every municipality an excess of revenue over the ordinary maintenance cost of government.

It will readily be seen that, if surplus revenue accumulated over a period of years

is appropriated to meet ordinary current charges, or if there is a failure to raise sufficient revenue, or laxity on the part of the officials to maintain an average collection of revenue, a tabulation would show a deficit of revenue. If a surplus is consistently shown, then it is evident that the officials are raising sufficient revenue to meet current charges, are striving to collect revenues promptly, and are also including in the tax levy some of the annually recurring outlay accounts.

The aggregate revenue for current charges for all municipalities, classified according to source, and the aggregate charges against revenue, classified according to purpose or function, with the percentage each class bears to the total for the years 1923 and 1924, are shown in the following tables:

Revenue for Current Charges.

Classification.	1923	1924	Percentages 1923	Percentages 1924
Taxes	$172,289,600	$182,973,483	80.54	80.81
Licenses and permits	760,387	804,420	0.36	0.36
Fines and forfeits	726,218	833,303	0.34	0.37
Grants and gifts (for expenses)	3,025,218	3,213,741	1.41	1.42

Cemeteries	1,099,598	1,211,372	0.55	0.57
Administration of trust funds	185,301	192,839	0.09	0.09
Maintenance and operation	$163,499,362	$173,346,411	82.24	82.07
Interest	16,639,058	17,124,958	8.37	8.11
Debt from revenue	17,009,248	18,859,615	8.56	8.93
Transfers to sinking funds from revenue	1,649,406	1,873,771	0.83	0.89
Totals	$198,797,074	$211,204,755	100.00	100.00

The above tables show the cost of maintenance of the various functions or activities of government and the relative cost of each; also the source of revenue of the municipalities and the relative amount received from these various sources.

Departmental revenue shows an increase over the preceding year, due entirely to the increase of unclassified receipts as shown in Table I. These receipts are exceptionally large, since we have included the amounts returned to the municipalities on account of the soldiers' bonus fund, so called. This fund was raised by a special tax which was collected either by the State or by the cities and towns and paid to the State; but the amount collected was in excess of the actual requirements, and in ac-

cordance with a special act of the Legislature, the surplus was returned to the municipalities. The money collected to pay the war bonus was received on account of assessments made in the years 1918 to 1921, inclusive, and the return to the cities and towns was made in 1924.

Of the total charges against revenue, 82.07 per cent was for maintenance and operation of the departments, and 17.93 per cent was for interest and debt. Debt and interest charges increased slightly over the previous year, due partly to the amount of betterment assessments paid to sinking funds, and partly to the increase in debt payments. The largest amount expended for maintenance and operation was for schools, being 34.59 per cent of the total maintenance and operation cost; the next largest expenditure was for protection of persons and property, namely 16.59 per cent. The increase in the cost of protection is due, no doubt, to the traffic problem of today, and it would be of value if the cost of maintaining law and order could be shown separately from the cost of traffic control, but at present it seems impracticable to attempt this. The cost of highway maintenance is proportionately less than is shown for the previous year, but the amount shown in Table I for outlays on account of highways is fifty per cent more than was shown in the previous year. Again the effect of the automobile is noted, as the amount expended by the municipalities for highway outlay is in excess of the amount expended for highway maintenance which includes sidewalks and street lighting.

The revenue for current charges for the year 1924 for all cities and towns exceeded the current charges against revenue by $15,225,094, or 7.21 per cent. Comparing the years 1923 and 1924, we find that the revenue for current charges increased $12,508,629, or 5.85 per cent, while the current charges against revenue for the same period increased $12,407,681, or 6.24 per cent.

The policy of this Commonwealth of informing the people as to the cost of governmental activities by causing annually recurring costs to be reflected in the current year's taxes has caused relatively high tax rates. It is evident, however, that this plan meets with approval, for there appears to be a general demand for further restrictions in the incurrence of debt.

The Debt Burden.

The net funded or fixed debt of all municipalities at the close of the financial year 1924 was $246,696,377, an increase over 1923 of $16,729,407, or 7.27 per cent. The increase in assessed valuation of taxable property was $322,508,242, or 5.39 per cent.

On pages xxi to xxvii tables are presented showing the net debt January 1, 1926, and the ratio of net debt to assessed valuation for the cities, the towns over 5,000 population, and towns under 5,000 population. The total net debt on January 1, 1926, for all municipalities was $257,267,711, an increase over that reported on January 1, 1925, of $11,750,813, or 4.79 per cent. The increase of assessed valuation was $337,240,247, or 5.35 per cent.

The tables on pages xxi to xxvii classify the municipal indebtedness as general debt and enterprise debt, the general debt being further classified so as to show the amount inside the debt limit and the amount outside the debt limit. Practically all of the general debt outside the debt limit has been issued under authority of special acts of the Legislature. The aggregate general debt January 1, 1926, for all municipalities was $194,418,516, of which $77,985,978, or 40.11 per cent, is debt reckoned as outside the limit of indebtedness.

The enterprise debt represents debt incurred for municipal water supplies, municipal lighting plants, and the rapid transit system in Boston, a very small amount being for other public service enterprises. This debt is shown separately, since very little of the carrying charge is reflected directly in the tax rate.

The ratio of net debt to assessed valuation on January 1, 1926, was 3.88 per cent, as compared with 3.90 per cent on January 1, 1925.

In making a comparison between the special debt table as of January 1 of any year with that of the financial year as reported, a slight variation is shown, since the financial years of our cities end between November 30 and March 31 following, the towns only corresponding with the calendar year.

THE CERTIFICATION OF TOWN AND DISTRICT NOTES.

The records of the office relating to the financial condition of the towns of the Com-

monwealth are invaluable in connection with this particular branch of the work. They furnish information required by committees of the Legislature when authority is sought by a municipality to borrow outside the debt limit, and are also utilized to a very great extent by investors in municipal securities.

It has become a fixed policy to make a most thorough investigation of every vote submitted with the notes for certification, and, as a result, the towns have benefited by getting a broader market at a lower rate of interest than obtained prior to the certification act of 1910.

The number of notes certified and the amount of the loans represented by them since the town note act took effect on January 1, 1911, are shown in the following table:

Years.	Revenue and Other Temporary Loans		General Loans		Total	
	Number	Amount	Number	Amount	Number	Amount
1911	983	$8,974,214.59	433	$737,349.43	1,416	$9,711,564.02
1912	1,093	9,438,850.00	831	1,093,712.20	1,924	10,532,562.20
1913	1,241	10,958,450.00	1,095	1,727,363.74	2,336	12,685,813.74
1914	1,411	12,780,963.00	1,290	1,779,575.29	2,701	14,560,538.29
1915	1,501	13,857,600.00	1,306	1,505,530.16	2,807	15,363,130.16
1916	1,437	14,066,488.00	867	1,204,053.62	2,304	15,270,541.62
1917	1,456	15,414,379.22	809	819,664.21	2,265	16,234,043.43
1918	1,665	16,434,205.75	664	711,160.23	2,329	17,145,365.98

[1] To July 1.

The Auditing of Municipal Accounts and the Installation of Accounting Systems.

This particular work of the Division is constantly increasing. The number of requests for annual audits has prevented the making of a first general audit in all cities and towns as contemplated by the statute, although we are gradually increasing the force of examiners for this work. The number of examiners, however, who can be added during the year is necessarily limited, for even experienced accountants in commercial work must be trained for this particular kind of work, especially where a system of accounts is to be installed.

The auditing of accounts has in the past disclosed serious losses to a number of our cities and towns, but in cases where more frequent audits are requested the conditions found are quite satisfactory. The demands on the part of the public, not only for service at public expense, but for information as to the costs of such service, necessitate careful planning on the part of the administrative officials and prompt and accurate recording of all financial transactions by the accounting and financial officers.

Real progress has been made by many of our municipalities both in providing revenue to meet their needs and in the accounting, but there are still too many places that seem to think that the tax rate must not exceed a certain figure, regardless of the amount appropriated; in other words, they fail to see that a carefully planned budget automatically fixes the tax rate and that any other method is likely to result in a fluctuating tax rate and embarrassment to the taxpayer.

The system of accounts recommended is designed to set forth clearly the true financial condition of the municipality, and the audit reports seek to be constructive rather than critical. During the past year accounting systems have been installed in 14 cities and towns, making a total to date of 164. In addition to installing the 14 systems of accounts, audits have been made in 97 other cities and towns and assistance rendered to a number of cities and towns where systems had previously been installed.

Conclusion.

The work of this Division was never more exacting, legislation each year pertaining to municipal finances increasing the duties, and I wish to express to the entire office

force my appreciation of the efficient manner in which their respective duties have been performed, particularly to Mr. Edward H. Fenton, Deputy Director and Chief Examiner, who has charge of the auditing of city and town accounts and the installation of accounting systems, and to Miss Hannah M. Varney, in general charge of the clerical work and the preparation and tabulation of this report.

Respectfully submitted,

THEODORE N. WADDELL,
Director of Accounts.

State House, Boston, July 1, 1926.

PLAN OF THE REPORT.

The statistical presentations of this report, following the introductory matter, are arranged in three principal parts, devoted respectively to the finances of (I) the 39 cities; (II) the 79 towns having a population of 5,000 or over; and (III) the 237 towns having a population of less than 5,000. In all the tabulations, unless otherwise indicated, the cities and towns are arranged in order of population for convenience of comparison.

Part I. — Cities.

This part is subdivided as follows: — (A) Summary of Financial Transactions; (B) Receipts from Revenue; (C) Payments for Maintenance and Interest; (D) Indebtedness; and (E) Cash Balances.

(A) *Summary of Financial Transactions.*

This division consists of a summary table (designated Table I) or general survey of all the financial transactions of the 39 cities of the Commonwealth (pp. 4–27). The several cities, with the exception of Boston, which has financial transactions of such magnitude as to warrant presentation independently of the other cities, are arranged, for purposes of comparison, according to the population of the Massachusetts Census of 1925, typographical considerations making it necessary to adopt an arbitrary grouping of four municipalities to a page.

(B) *Receipts from Revenue.*

Table II (pp. 30, 31) shows receipts from *General* and Table III (pp. 32, 33) receipts from *Commercial* Revenue. The former consists of taxes, licenses and permits, fines and forfeits, grants and gifts, and all other general revenue; while the latter is composed of revenue from special assessments (whether for expenses or outlays), privileges, departmental earnings, public service enterprises, cemeteries, and interest.

Table IV (pp. 34–42) is an exhibit of classified Departmental Earnings (being the detail of Column D of Table III), from which may be seen the amount of revenue received by the several municipalities from their various departments. Unclassified receipts are excluded because of their diversity. This table is self-explanatory and is suggestive as disclosing the varying degree to which different cities have discovered opportunities for revenue from this source.

Table V (p. 43) is a tabulation of interest receipts classified so as to show the amount of interest derived from money on deposit, from deferred taxes and special assessments, from public trust funds (sub-classified according to particular funds, so far as is practicable), from investment funds, and from miscellaneous sources.

Table VI (p. 44) presents a summary of revenue receipts, giving within the scope of a single table in a form convenient for comparison the receipts from all sources of revenue of the 39 cities.

It is of interest to note that of the total revenue receipts of the 39 cities of the Commonwealth for the year covered by the report, 81.4 per cent is from general revenue sources and 18.6 per cent from commercial revenue sources. The revenue receipts of the city of Boston are 79.7 per cent from general and 20.3 per cent from commercial sources.

(C) *Payments for Maintenance and Interest.*

The tables in this division, VII to X, inclusive (pp. 46–68), exhibit gross payments, classified in detail, on account of the maintenance cost, or what are sometimes called the "current expenses" of the various departments or kinds of municipal services. Interest payments are similarly but separately shown, not only because it is desirable to exhibit this item of expense independently, but because interest is properly a capital rather than a departmental charge.

It would be most interesting and significant, too, if we could calculate the net cost of the several municipal services so as to show the actual burden of each upon the taxpayer, and it might be supposed that such a figure could be obtained simply by deducting the earnings of a department from the amount necessary to maintain it; but there is as yet on the part of accounting authorities no clear or general understanding as to what receipts should be treated as departmental earnings, thereby constituting a proper offset to expense, and what, on the other hand, being in the nature of an assessment upon the taxpayer rather than a charge upon the citizen, cannot be legitimately deducted from a gross cost figure in order to obtain net cost of maintenance.

In comparing certain departmental expenses, large differences will occasionally be noted for the same class of service, the reason for which is not sufficiently apparent to warrant our attempting to assign it without more or less exhaustive inquiry. Meanwhile the differences, even for a single year, which may be noted in these comparative tables for cities of approximately the same size should stimulate local discussion for the purpose of ascertaining whether a satisfactory explanation can be found.

From the interest table (p. 68) we note that the total interest burden of the 39 cities for the year covered by the report was $14,534,667.53, of which $7,849,180.30, or 54.0 per cent, was interest on the general debt; $1,583,872.41, or 10.9 per cent, was interest on revenue and other temporary loans; and the remaining 35.1 per cent of the total interest payments was for debt on account of public service enterprise and cemetery loans, metropolitan assessments for sewer, park, and water purposes, state assessments on account of grade crossing abolition, and miscellaneous debt not specified. It is of interest to note that the total assessment on the city of Boston for interest on metropolitan debts was $1,680,045.32, or 25.0 per cent of the total interest burden of the city (see also payments to the state sinking and loan funds on page 73). Nearly 56 per cent of Somerville's total interest burden is on account of metropolitan assessments.

(D) *Indebtedness.*

Table XI (p. 70) shows the outstanding indebtedness classified by the character of the obligation; Table XII (p. 71), the relation of indebtedness to valuation, the valuation figures as reported to the Tax Commissioner being used; Table XIII (p. 72), the debt transactions for 1924, classified according to the character of the obligation; Table XIV (p. 73) shows separately the payments to the state sinking and loan funds; and Table XV (p. 74) shows the method of meeting debt requirements from taxation.

A tabulation which gives figures for the funded or fixed debt and the net debt only of a municipality does not, however, tell the whole story of the debt burden. Revenue loans, it is true, are not included in reckoning the limit of indebtedness under the law; but though they are temporary transactions with uncollected taxes presumably as an offsetting asset, they constitute in fact a permanent burden, since they are as a class annually recurrent. Loans in anticipation of bond issues, although of a temporary character, are in reality *fixed* debt (having no assets as an offset) and in Table XII are included in the total of funded or fixed debt and reckoned in determining the net debt. Table XI (p. 70) has therefore been prepared for the purpose of showing the aggregate outstanding indebtedness, including not only the funded or fixed debt, but also temporary debt and warrants or orders unpaid.

The net funded or fixed debt is found by deducting from the total funded or fixed debt the amount which has been set aside in sinking funds to pay the debt when due. Funded or fixed debt does not include revenue loans or outstanding warrants or orders, because these debts are considered temporary, and it is assumed that such obligations are offset by theoretically "quick" assets. Thus, revenue loans are offset by uncollected taxes, and warrants or orders by cash on hand.

The table of debt transactions (p. 72) is of interest as showing the amount of debt incurred during the fiscal year 1924 for the several purposes specified, and the amount

of debt cancelled during the year, excepting payments to the state sinking and loan funds on account of grade crossings, metropolitan assessments for sewer, park, and water purposes, and payments to counties on account of debt incurred for bridge purposes. These payments represent the cancellation of a portion of the city's debt incurred by the State on its account, and for this reason are excluded.

Included in the term "General Loans" in the table of debt transactions are not only loans issued for general purposes, but likewise all loans whether specified as for school, fire, or police, etc., purposes, since these could not be shown separately by figures which would be comparable.

Payments to the state sinking and loan funds on account of grade crossings and metropolitan sewer, park, and water assessments are shown separately in Table XIV (p. 73). The aggregate amount thus paid for the 39 cities in 1924 was $726,464.60, of which *Boston* paid $415,511.87, or 57.2 per cent.

Table XV (p. 74) is of interest as showing the relative use by the 39 cities of Massachusetts of the two methods of meeting their debt obligations. The payments to the state sinking and loan funds on account of grade crossings and metropolitan assessments are included in this table in order to show the annual debt charges against revenue, but they are *assessments* and not properly charged as a serial or municipal sinking fund payment.

(E) *Cash Balances.*

Table XVI (p. 76) shows the amount of cash on hand held by the treasurer and departments at the beginning and close of the fiscal year 1924.

PART II. — TOWNS OVER 5,000 POPULATION.

The subdivisions of this part are as follows: — (A) Summary of Financial Transactions; (B) Indebtedness; (C) Cash Balances.

The tables in Division A, *Summary of Financial Transactions* (pp. 80–123), are similar in form and detail to those given for the cities in Part I, the towns being arranged according to population, with the exception of Brookline, the largest town, which is presented separately as its transactions are scarcely comparable with those of any other town. The tables in the division devoted to *Indebtedness* (II, III, IV, V, and VI, on pp. 126–133, inclusive) are similar to those given for the cities, and the comments made in the latter connection are likewise applicable to the towns. The statements of *Cash Balances* (pp. 136, 137) for the towns are also self-explanatory.

PART III. — TOWNS UNDER 5,000 POPULATION.

The subdivisions of this part are as follows: — (A) Summary of Financial Transactions; (B) Indebtedness; (C) Cash Balances. They are presented on the same plan as the towns of over 5,000 population, which are shown in Part II.

ANALYSIS TABLES

I. Excess or Deficiency of Revenue
   A. Cities
   B. Towns over 5,000 Population

II. Revenue Charges for Maintenance, Interest, and Debt Requirements
   A. Cities
   B. Towns over 5,000 Population

III. Comparative Statement for the Cities of Valuation, Revenue for Current Charges, and Current Charges against Revenue

IV. Comparative Debt Statements
   A. Aggregate Municipal Indebtedness — Comparisons for 1910, 1922, 1923, and 1924
   B. Aggregate Municipal Indebtedness — General and Enterprise Debt
   C. Net Funded or Fixed Debt and Assessed Valuation

V. Net Debt January 1, 1926, and Ratio of Net Debt to Valuation
   A. Cities
   B. Towns over 5,000 Population
   C. Towns under 5,000 Population

Excess or Deficiency of Revenue: Cities.

Cities. (In order of Population, 1925)	Revenue for Current Charges					Current	
	1920	1921	1922	1923	1924	1920	1921

TABLE XII. — *Relation of Indebtedness to Valuation — 1924.*

NOTE. — The valuation given in this table is the assessors' valuation of real and personal property as of April 1, 1924, together with the supplemental assessment of December, 1924, exclusive of the non-resident bank stock as reported to the Tax Commissioner.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table XI, which includes funded or fixed debt and also temporary debt. If the amount of revenue loans, other temporary loans, such as is found in Northampton (see foot-note on Table XI), and warrants or orders is deducted from the total debt shown in Table XI, the result will give the funded or fixed debt shown in Table XII.

	Cities.	Population of 1925	Percentage of Net Debt of Valuation	Valuation of 1924	Total Funded or Fixed Debt	Sinking Funds	Net Funded or Fixed Debt

[1] Includes railroad stock offsetting debt of $191,000.
[2] Includes $133,986.89 investment fund.

TABLE XIII. — *Debt Transactions for 1924 Classified by Character of Obligation.*

NOTE.—The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State on account of grade crossings and Metropolitan assessments, or payments to counties on account of debt incurred for bridge purposes. For this reason the total amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 4 to 27, under the section "Municipal Indebtedness."

[2] In anticipation of highway reimbursements from State and county.

TABLE III. — *Relation of Indebtedness to Valuation — 1924.*

NOTE.—The valuation given in this table is the assessors' valuation of real and personal property as of April 1, 1924, together with the supplemental assessment of December, 1924, exclusive of the non-resident bank stock as reported to the Tax Commissioner.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table II, which includes funded or fixed debt and also temporary debt. If the amount of revenue loans, other temporary loans, such as are found in Braintree, Grafton, and Canton (see foot-notes on page 127), and warrants or orders is deducted from the total debt shown in Table II, the result will give the funded or fixed debt shown in Table III.

	Towns. (Population over 5,000)	Population of 1925	Percentage of Net Debt of Valuation	Valuation of 1924	Total Funded or Fixed Debt	Sinking Funds	Net Funded or Fixed Debt
1	Agawam	6,290	7.6	$6,541,645	$494,500.00	–	$494,500.00
2	Hudson	8,130	7.4	6,768,282	503,800.00	–	503,800.00
3	Wakefield	15,611	7.4	18,717,425	1,379,350.00	–	1,379,350.00

79 Towns	**828,467**	–	**$1,081,337,298**	**$34,192,118.94**	**$1,856,146.97**	**$32,335,971.97**

TABLE IV. — *Debt Transactions for 1924 Classified by Character of Obligation.*

NOTE. — The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State on account of Metropolitan assessments, or payments to counties on account of debt incurred for bridge purposes. For this reason the total amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 80 to 123, under the section "Municipal Indebtedness."

Refunding bonds for the current year were bonds issued for electric light and water purposes.

TABLE III. — *Relation of Indebtedness to Valuation — 1924.*

NOTE. — The valuation given in this table is the assessors' valuation of real and personal property as of April 1, 1924, together with the supplemental assessment of December, 1924, exclusive of the non-resident bank stock, as reported to the Tax Commissioner.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table II, which includes funded or fixed debt and also temporary debt. If the amount of revenue loans, other temporary loans, such as those found in Stockbridge, Sandwich, Berlin, and Eastham (see foot-notes on Table II), and warrants or orders is deducted from the total debt shown in Table II, the result will give the funded or fixed debt shown in Table III.

There are 65 towns which showed no funded or fixed debt.

	Towns. (Population under 5,000)	Population of 1925	Percentage of Net Debt of Valuation	Valuation of 1924	Total Funded or Fixed Debt	Sinking Funds	Net Funded or Fixed Debt
1	Norton	2,769	6.3	$2,418,775	$151,500.00	–	$151,500.00
2	Russell	1,398	5.7	2,950,888	169,000.00	–	169,000.00
3	Sunderland	1,290	4.7	1,185,581	55,250.00	–	55,250.00

[1] Less than one-tenth of one per cent.

TABLE IV. — *Debt Transactions for 1924 Classified by Character of Obligation.*

NOTE. — The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State on account of Metropolitan assessments, or payments to counties on account of debt incurred for bridge purposes. For this reason the amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 142 to 263, under the section "Municipal Indebtedness."
